

Did you know that after replacing a car part at the mechanic, the mechanic is supposed to show you the old part?

Well, Hello everyone, my name is Samer Moussa and i'm an automotive consultant, with a bachelor's degree in automotive mechanics, and i have found the solution to a painful problem.

Have any of you ever visited a car mechanic and felt misguided? Misinformed? Tricked? Overcharged? Or at the very least, had to visit the garage more than once for the same malfunction?

Well, I have.

I have had mechanics fix things that weren't broken to start with.

Rearview is a platform that connects you to the best and most reliable garages depending on the needed service, brand of your car and your location. you can also review and rate the garage based on your previous experience. In addition you'll gain access to our car consultancy hotline for any inquiry and in case of any emergency.
